Medical Assistant Certificate

MODALITY OFFERED: TRADITIONAL

This program familiarizes students with the theory and hands-on clinical skills necessary for entry-level positions as a Medical Assistant. At completion, students will be eligible to take national certification examinations, which are required to become a National Certified Medical Assistant, Certified Phlebotomist, and ECG Technician. The knowledge and skills will enable graduates to qualify for work in various medical practice settings.

Certification Preparations: PHL, ECG, MA (through NCCT)
Eligible Licensure: CPTI-CDPH, BLS

PROGRAM OUTCOMES

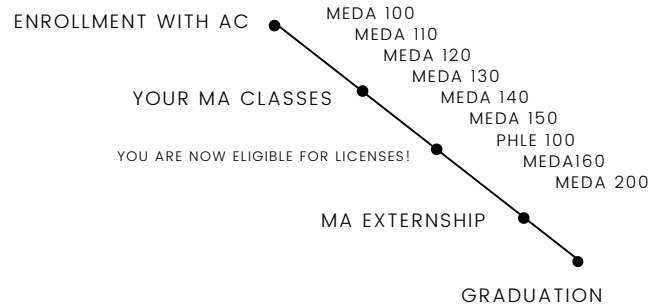

- Apply principles of infection control, asepsis, and sterilization techniques within OSHA guidelines.
- Perform clinical, laboratory, and emergency procedures within the medical assistant assisting scope of practice.
- Identify drug classifications and calculate dosage.
- Demonstrate appropriate communication in the medical assisting.
- Perform medical administrative tasks.
- Perform medical billing and coding procedures, including completing insurance forms.
- Demonstrate competence with HIPAA guidelines while following current standards of medical ethics.

Careers

Students who graduate have the chance of being hired with these job titles:

- **Medical Assistant**
- **Medical Office Assistant**
- **Clinical Assistant**
- **Doctors Assistant**

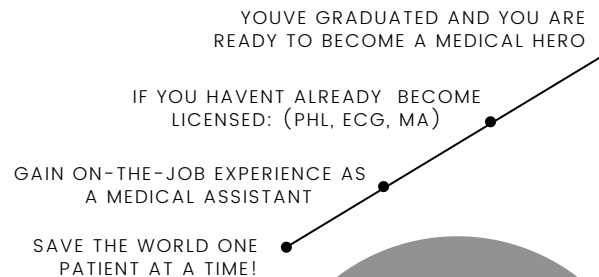

Your Path to Success

MA EXTERNSHIP:

Students gain practical work experience with the opportunity to perform various clinical and administrative procedures in a supervised program for 180 hours in a medical facility. Externships are taken in the final quarter of the degree/diploma program and under all circumstances must be unpaid.

After Graduation

Learn.
Advance.
Succeed.
