**Advance**  
**Phlebotomy**

# Phlebotomy

## Certificate

### MODALITY OFFERED: TRADITIONAL

Choose our traditional learning Phlebotomy program for in person lectures, and hands on workshops with a licensed phlebotomist.

- Certification: NCCT
- Licensure: CPTI-CDPH

## Careers

Students who graduate have the chance of being hired with these job titles:

- **Phlebotomist**
- **Registered Phlebotomist**
- **Phlebotomy Technician**

## Your Path to Success

### Enrollment with AC

#### PHLE 100 – PHLEBOTOMY

-Explore the legal and ethical aspects related to phlebotomy and learn about the duties and responsibilities of a phlebotomist.

-Examine various techniques used in venipuncture.

-Study safety for the patient and technician, and patient education, and complications in obtaining blood in a variety of clinical situations.

-Students are introduced to California state requirements for a position as a certified phlebotomist.

-Perform venipuncture and capillary punctures on teaching aids and after mastery, on consenting individuals. Students use infection control and Standard Precautions before, during, and after each procedure.

#### PHLE 220 – PHLEBOTOMY Externship

This course will help students to finish the required numbers of phlebotomy procedures, mandated by the California Department of Public Health (CDPH). Students will spend 40 hours in a real laboratory to fulfill the requirements of their externship

### Graduation
